

A KIND EXPRESSION FROM TBILISI, REPUBLIC OF GEORGIA

As various events were in progress to remember the terrorist tragedy that struck the USA on "9/11" I received a number of letters from various locations. Here is a sampling from a dear friend in Tbilisi. I think you will appreciate Giorgi's kind thoughts, his respect for our nation and the gratitude for the work that you help accomplish.

Subject: Georgia-Giorgi-September 11

Dear Mr. Kachelman,
It's a great honor for me to greet you and once again express my appreciation for the last generous donations from churches of Christ to Georgia and to the Great Support for the poor and needy you provide.

Mr. John, Let me to recollect the great pain that was caused due to the act of Terrorism taken place in the USA of September 11, 2011. It was not the pain and sorrow only for the American people, but it was the great pain for everybody. Unfortunately, together with thousands of victims 343 firefighters from New York died heroically performing their job during the act of terrorism.

Mr. John,
We all share your sadness and the sorrow of American People for the last act of terrorism of September 11, 2001 and we were honored to establish in our City together with USA Ambassador Norland in Georgia and with firefighters from Minnesota a Memorial Garden and a Symbolic monument to commemoration of 343 firemen, as the Symbol and clear confirmation of the Friendship between the American and Georgian Nations. The only important element missing was your personal presence. We continue to beg you to visit with us!

Thank you to churches of Christ for Friendship and the great support!

May God bless and save The USA and Georgia!

Best regards, Giorgi Atashvili
