Greetings brothers and sisters in Christ. Here is the activities we had during this summer and also some spring events I did not mentioned.

I would like to begin with good news, we have five people added to the church this summer. One of them is the principle of the local school number 9 (some Americans visited this school). And even more than that, Slava Gipich, this is his name, was a students of Bible and history program at Mr. Lee Institute long time ago, during Buck Hall and Terry Harmon time. I'm sure Terry remembers him, because he was the one who liked to ask questions and have a discussions during the class. He was a student back in 2004 and only now became a Christian, it worked eventually, in 15 years. My wife, Oksana met him on the street a year ago and invited to ABC school to study English because he had said he wanted to study it. So he came and had Bible classes with me and in a year became a Christian. He has a wife and two children, they all went to summer Bible camp with us and there he decided to be immersed. He has the same desire for his wife this is what he said. His older child, Kate, comes to ABC bible school.

Also, my brother Max got baptized this summer during the camp and my joy was beyond measures. Have been telling this boy about Christ for many, many years, and finally. also one young couple (Alexander and Irina) got baptized during the camp and a

Seminar in Dnepr, "Godly worship".

Many Christians from different regions came to this seminar. Many good thoughts were expressed and good fellowship took place.

Seminar "Family climate"

This seminar was for both church and ABC school parents. We had a speaker from Western part of Ukraine, Dmitry Galyuk.

Summer VBS "Do not be afraid"

This time 450 people had the opportunity to visit the biggest event of the year where Christians and their families and friends can be edified and inspired by so many great teachers both Americans and Ukrainians. As many of participants of the camp mentioned: "We stay inspired all year round. Very thankful to those who make it possible every year."

Benevolence work

We continue this work trying to help with wheelchairs, crutches, walkers. Having new contacts to teach about Jesus. John Kahelman
