EXTENDING OUR REACH! WELCOME LIBERIA!

March 21, 2019 | PROJECTS | CHARITA SHTEYNBERG

Project 59 - Judsonia AR – Liberia

I am pleased to introduce to you a new member of our WOC family – William S Cassell; who is running a school and medical facility in a remote area of Liberia. William came to the U.S. to receive an education in nursing and is ready to return to his Medical Outreach Ministry, located at Omega Oldfield Community, Barnard Farm, Paynesville, Liberia. However before returning home, he visited College Church of Christ located in Searcy, AR. with a request for help: to provide Liberia with needed medical assistance, he needed medical supplies.

From that point on not only have we become friends with William, but he managed to bring together so many people with only one desire in mind... to help. It was a long road to get all the approvals from Liberia, but finally, on March 21, David Lawyer and Church of Christ volunteers, joined by William, loaded a 40-foot-high cube container packed with necessary medical supplies.

From that point on not only have we become friends with William, but he managed to bring together so many people with only one desire in mind... to help. It was a long road to get all the approvals from Liberia, but finally, on March 21, David Lawyer and Church of Christ volunteers, joined by William, loaded a 40-foot-high cube container packed with necessary medical supplies.

Of course, all who were involved deserve a big thanks, but that will make this blog ten pages long. We could not go on with this story without mentioning **Henry Schein Cares and Charitable Medical Distributors**; for giving a large donation of medical supply. As well as **Robert Brackett** who sponsored this project, and thanking them all for the assistance they put in for this cause.
