

IVANO-FRANKIVSK CHURCH CONSTRUCTION UP-DATE FEBRUARY 4, 2020

Photo: The roof is finished; exterior doors installed; all windows except the large windows installed!!

Here is recent communication on the construction project in Ivano-Frankivsk. The wonderful news is that the harsh winter weather "waited" until the roof was completed! A few days after the roof was completed a blizzard struck the Carpathians dumping "feet" of snow! Thank you for your prayers asking for good weather for this phase of construction. At this point we have all windows installed (the large windows for the auditorium are to be installed as this report goes out), the auditorium has been plastered, work on the plumbing is underway. We have partial funds to purchase the heating system and as soon as the remaining funds are donated, we will give the go-ahead on installing the heating system. Once the heating system is installed the Church should begin occupancy! Members will continue working on interior plastering and other tasks. They are working on electrical and plumbing but must have it inspected and approved by a registered State agency.

The progress and success of this project is exciting and incredibly amazing! *"Now to Him who is able to do far more abundantly beyond all that we ask or think, according to the power that works within us, to Him be the glory in the church and in Christ Jesus to all generations forever and ever. Amen"* (Ephesians 3:20-21).

Greetings, brothers and sisters! Thank you for your help and fellowship. Holidays are about over and the workers have gotten back to their work. I hope that weather will cooperate and we will roof over on time. Ruslan and Pasha dug and set up a well for water and ran the pipe into the building. We thank God for good weather He has blessed us with. We are to get auditorium windows as well as outside doors this week. I'll let you know as soon as we get them. I'm sending you pics of the work done as of today. With love, Andrew

Dear brothers and sisters, there have been strong gusty winds blowing this week but the Lord has still blessed us and we have done more work despite the wind. We continue roofing over. Our large windows require metal support bars and they have been installed. We ordered outside doors. We cannot wait to see the day when we get together in our new meeting place to praise our Lord Jesus. Big thanks to you for prayers, encouragement and support. With love, Ivan and Svitlana

Greetings, brothers and sisters! Our congregation prays for our brethren who live so far away. We have encouraging news to say we finished putting roof over the main auditorium and the other side of one of the triangle parts! Our God has blessed us with good weather and we have done a lot this week. We pray and ask God to continue blessing us in this work and with good weather. We thank all of you for your great help in our common cause and for prayers of all those who care. Please, pass our love onto all. Andrew

Dear brothers and sisters! Weather has changed today and it's been raining and snowing. Despite this change we continue roofing over and have almost completed the task. Big thanks to all those that pray for the work. We thank the Lord for the blessed day we have had today. In Christian love, Ivan and Svitlana

Greetings, brother John! I hope you're doing well. I always pray for you and thank God you, your hard work and zeal for Him. Attached are pictures from today. Thank you, dear brothers and sisters, for your prayers. Weather has been nice these days and hope to finish the roof and windows before the week is over. John, I have talked with brother from Florida and he says they will give \$4,000 for construction. We will put that money to begin to save to have enough to buy a heater. THANK GOD!!!

Subject: Fw: Construction

Greetings, brother John. **I would like to share good news with you. Lord has blessed us with good weather and we have finished putting up metal roof all over the building.** It looks very nice. We received doors and large windows for the auditorium yesterday. We will have them installed on Monday. Outside doors will also be put in on Monday. Thus, we have managed to do all we can to protect the building from wind, snow and rain. Now we can switch to interior works, such as:

- design and installation of power lines and fire alarm
- design and installation of heating
- design and installation of ventilation and conditioning
- design and installation of running water and sewerage
- floor (moisture barrier, leveling, tile)
- walls (plastering, painting)
- ceiling

We always thank God for all that pray and support us financially. In Christian love, Andrew

“We finished putting up metal roof yesterday. Doors and large windows for the auditorium were delivered after lunch. Our plans are to continue working on Monday. We need more money at this point to get plumbing done, to run power lines and heating so that we can do interior work without a break. Please, continue praying for us and our needs. Please, support our hands raised to God so that together we will see this construction through and give glory to His name in Western Ukraine.

Ivan, Andrew, Ruslan, Paval, Volodya”

Dear brothers and sisters! Big thanks to you for prayers and support. We have finished roofing over, have installed windows and doors. One thing we haven't managed to put up as planned is large windows as it took more time to install frames and supports for windows. We will continue putting up large windows on Monday. We have also finished plastering walls of the auditorium. Please, continue praying for our construction and congregation. We love you. Bond of spirit and truth is where our power lies. With love, Ivan and Svitlana

This construction PLUS the usual activities of the congregation are taking place in Ivano-Frankivsk. For a report on the usual activities of the congregation be sure to read the newsletters posted on our web site! *Will you help your brethren complete this construction by sending a generous donation to:*
